KOLBE-7 | 7-LAYER PLATE-PRESS STACK

Actual assembled BREP projection | See component sheets for manufacturing dimensions

ASSEMBLY ENVELOPE / 总成参数

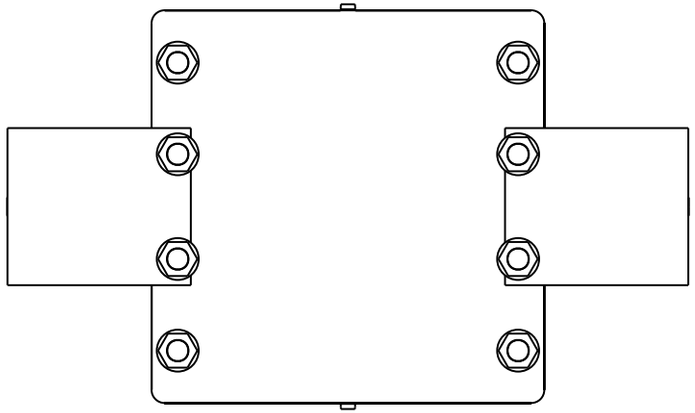

01 BREP envelope: 260.4 x 154.6 x 112.65 mm (X x Y x Z)

02 Validated body stack height: 82.45 mm; active layer-stack height: 38.45 mm

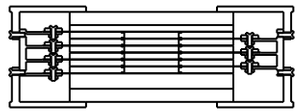

03 Assembly BREP contains 167 component instances; view shows actual model placements

04 Geometry/model volume reported by assembly Stack: 1876264.2 mm³; not a pressure or strength rating

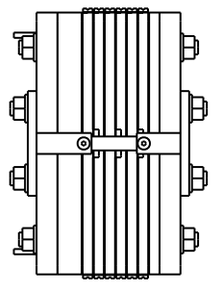

05 6 mm inter-electrode gap is a provisional envelope; pump flow, materials and sealing remain unresolved

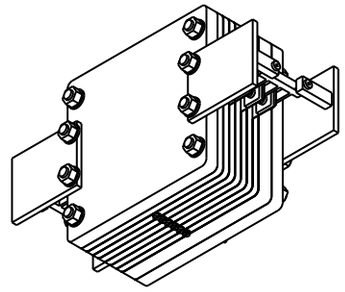

PLAN / FRONT (1:2.1)

SECTION A-A (Y=0; Z MID-STACK)

SIDE (1:3.1)

ISOMETRIC (1:4.2)

REVIEW GEOMETRY ONLY; do not infer pressure, torque, current capacity or final gap from this assembly view.
